Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 1-10 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims **1, 3, 5 and 6** are rejected under 35 U.S.C. 102(e) as being anticipated by Zwaan et al. (Patent GB 2 252 515 A).

4. As to **claim 1**, Zwaan teaches an apparatus that comprises an inlet **2** (**see figure 7**); an outlet **3** (**see figure 7**); an enclosing wall defining a flexible gases passageway between the inlet and the outlet, at least a region of the enclosing wall being of a material that allows the passage of water vapour with allowing the passage of liquid water or respiratory gases through the wall (**see page 5 lines 18-25**), and a heating means **50** located with the conduit (**see figure 7**), the heating means comprising elongate heating element (**see figure 7**), wherein the flexible conduit is of type suitable for conveying breathing gas to or from a patient (**see abstract**).

5. As to **claim 3**, Zwaan teaches an apparatus wherein the heating means lies freely in the conduit to settle over at least some of its length at low points in the conduit where condensed water vapor may collect (**see figure 7**).

Art Unit: 3772

6. As to claims 5 and 6, Zwaan teaches an apparatus comprises an inner conduit, having an inlet 26, outlet 26 and an enclosing wall, an outer conduit, having a second inlet and a second outlet (see figure 7), the inner conduit located within the outer conduit (see figure 7), the inlet of the inner conduit and the second outlet of the outer conduit being located at a first end of the conduit (see figure 7); and the outlet of the inner conduit and the second inlet of the outer conduit being located at a second end of the conduit (see figure 7), and the heating means located in a space between the inner and outer conduit (see figure 7).

Allowable Subject Matter

7. Claims 2, 4 and 7-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Terminal Disclaimer

8. The terminal disclaimer filed on July 6th, 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 6,682,802; 6,769,431, 10/622,755; and 10/684,917 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 3772

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
